Advice from Astuce

Remember to put a lid on during cooking.
This reduces the cooking time of the food, which in turn
reduces your gas or electricity consumption.

Install heat-insulating curtains to keep out the cold
in winter and the heat in summer.
Be careful not to cover your radiators with the curtains.

Advice from Astuce

1 min =
10 L

When I brush my teeth,
I turn off the tap (1 minute = 10 litres of water).
I install a foamer to halve my water consumption
(up to €20 off my invoice).
